

Automated Dismissal

Dash Education Solutions is committed to creating tools that support, streamline, and enhance the daily operational and safety activities of schools. Our mission is to improve education by enhancing school operations and safety for students, staff, and faculty. We believe the best education happens when teachers can focus on teaching and students on learning.

Dear Parents and Guardians,

Our school will be using DashPass for student dismissal.

If you have not already, you will soon receive an email from DashPass inviting you to download the app and login. Please check the spam folder.

You can also download the app now by scanning the QR code using your phone.

But please wait for the email to login!

Once you receive it, on your phone, go to the invitation email and click on "sign in."

NON-PARENT/GUARDIAN REGISTRATION

It is for those in your family who will help with picking up the student.

Available

Granting Authorization to pick up your student

If you need someone else to pick up your student, please have them download the app on their phone and register using the "Authorized Driver" screen. Once they created the account, they can request authorization from you or you can grant it using the app.
